

FLOTEK

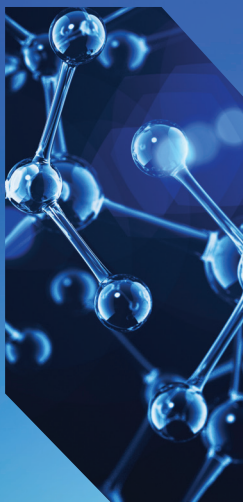

PIONEERING OIL FIELD
CHEMISTRY SOLUTIONS
FOR TOMORROW

OUR MISSION

Flotek Industries Inc. collaborates closely with our clients, offering tailored, performance-enhancing chemical technology solutions that bring tangible value to their assets and financial performance. Rooted in a commitment to research and innovation, our core mission revolves around fostering enduring trust with our clients. We achieve this through transparent communication, unwavering integrity in our data and interactions, and a genuine commitment to safeguarding our clients' resources as if they were our own. Our dedication is unwavering, as we tirelessly strive to deliver nothing less than the highest standards of quality, loyalty, and service, ensuring that we are the foremost partners in the transformative impact our technologies bring.

Our vision is to become the preferred collaborative ESG partner of choice by offering sustainable chemistry technology and cutting-edge digital analytics solutions.

WORLD CLASS CHEMISTRY TECHNOLOGIES

We collaborate and deliver sustainable, optimized chemistry and data solutions that maximize our customer's value.

Boost Your Asset Productivity with Flotek's Advanced Product Portfolio. Being a technology-centric organization that focuses on chemical and data solutions, Flotek serves an extensive array of industry sectors.

FLOTEK IS THE COLLABORATIVE PARTNER OF CHOICE FOR SOLUTIONS THAT REDUCE THE ENVIRONMENTAL IMPACT OF ENERGY ON AIR, WATER, LAND, AND PEOPLE.

SECTORS

ENERGY CHEMISTRY TECHNOLOGIES

Our chemical technology services are engineered to preserve your petrochemical processes' and enhance operational efficiency. We leverage established chemical science, advanced technology, and empirical data to customize innovative solutions that will boost your operational efficacy and overall performance.

DATA ANALYTICS

Flotek's state-of-the-art Verax analyzers have gained widespread adoption across the upstream, midstream, and downstream sectors, enabling real-time process control and secure custody transfer. Our customer reach extends throughout the global oil and gas value chain.

DELIVERING VALUE FROM LAB-TO-FIELD

Whether conventional or unconventional, our suite of green chemistry solutions enables customers to maximize the value of their hydrocarbon streams throughout the asset lifecycle. From drilling to cementing and stimulation to production, we help solve the toughest challenges, safely and sustainably.

CHEMISTRY SOLUTIONS

DRILLING & CEMENTING

At Flotek, we innovate in specialty polymers and surfactants, engineering high-performance additives for water and oil-based drilling fluids. Our customizable chemistry enables tailored well cementing solutions.

STIMULATION

For unconventional or conventional reservoirs, Flotek provides tailored stimulation fluid solutions, optimizing results through a deep understanding of your challenges.

COMPLETIONS, PRODUCTION, & EOR

Flotek leads the industry with innovative, sustainable chemistry solutions and data analytics for optimal oil recovery, underpinned by quality, customer service, and a global presence.

REMEDIATION

Flotek is a green chemical and data analytics company offering advanced chemistry technologies to enhance the efficiency and sustainability of oil and gas operations. Our strategic solutions, backed by industry experts, boost well value while ensuring operational excellence.

PRESCRIPTIVE CHEMISTRY MANAGEMENT®

Every reservoir is unique, and even within the same reservoir, characteristics vary from one well to the next—from geology and hydrocarbon composition to the well trajectory and completion techniques.

GLOBAL FOOTPRINT

UNLOCKING THE POTENTIAL OF CHEMISTRY WORLDWIDE

- Providing cost-effective chemistry solutions to drive results
- Introducing optimized chemistry strategies for enhanced performance
- Empowering operators to boost production, while minimizing costs per barrel
- Partnering with service companies to leverage our capabilities and resources, optimizing their operations.
